

Disclosure Log

The disclosure log is updated regularly and provides details of Freedom of Information requests submitted to the Electricity Regulatory Authority (ERA) that we feel may have a wider public interest.

Please note that the disclosure log does not list everything that has been released by the ERA under the Freedom of Information Law, 2007. Some responses consist of large numbers of documents that are not held in electronic format. Where practical, the documents concerned have been scanned and made available online via our web site.

In addition to a summary of the original request, the disclosure log indicates whether or not the information was released and what exemptions, if any, were applied. Where the actual reply has been reproduced, the applicant's name and other personal details have been deleted.

Freedom of Information disclosure log			
Request Number	Request Details	Response	Outcome
Details of requests will be updated when they are available
