

## **ERA Staff**

**Mr. Louis Boucher**  
***Acting Managing Director***

Mr. Boucher is a fellow of the Canadian Council of Professional Engineers and holds an MBA concentrating in Corporate Finance and Operations Management.

He brings to the ERA experience in project management and the evaluation of capital investment decisions in the utilities and power generation sectors. He has been involved in the analysis of renewable energy projects from a technological, environmental and financial viability standpoint.

Mr. Boucher is committed to ensuring the growth of alternative power generation from renewable energy sources in the Cayman Islands thereby diminishing both the dependence and variable cost component of diesel fuel whilst reducing the carbon footprint. He aspires to help promote the economic as well as sustainable development of the Cayman Islands.

**Mr. Jason Abraham**  
***Analyst***

Mr. Abraham joined the Electricity Regulatory Authority in May 2011. He holds undergraduate degrees in Economics and Engineering and is a registered Engineer-In-Training with the Association of Professional Engineers of Nova Scotia (Canada).
